Vishesh Sharma

Author-Instigator-Innovator

Who am I?

Life is an illusion, a dream. I am just trying to make it a beautiful one.

Nothing can be and cannot be one at the same time and I am. I am Vishesh Sharma.

Exposure to fields like Ideation to Technology and from Arts to Ancient Cultures gave me a quite interesting viewpoint to the world. I love to see technology from ideas perspective.

For me, building ideas, and working module-wise (this is the name that I give to step-wise approach), is what matters the most. Continuously growth is what I believe in.

Technical Skills

Languages:

Java
Python
C++
C#
