Major	Information Technology
Minors	Mathematics
	Business Management

Summary

Life is an illusion, a dream. I am just trying to make it a beautiful one.

Exposure to fields like Ideation to Technology and Arts to Ancient Cultures gave me a quite interesting viewpoint to the world. I love to see technology from ideas perspective.
For me, building ideas, and working module wise is what matters the most.

| Summer Intern
Web Development

Pushp Inspire Educators

Delhi

July '14 - Aug '16

| Founder, Teacher
Physics
Mathematics

Library Stock Portal with fingerprint recognition.

Worked on to build a Library project, designed to be user centric and automatic. The security included fingerprint identity module for user recognition.

Coaching Center.

Founded a coaching Centre. Taught Physics and Mathematics at 10+2 level. I was responsible for managing the coaching and performing all core tasks from recruiting teachers to organizing stuff.
